# About Gautam Tradelink

---

Gautam Tradelink is a premium supplier of pharmaceutical raw materials, specializing in Active Pharmaceutical Ingredients (APIs), Excipients, Nutraceuticals, and Chemical Intermediates. We serve pharmaceutical manufacturers worldwide with high-quality ingredients that meet international standards. Based in Mumbai, we have established a strong presence in Gujarat as well, serving the pharmaceutical hub of India with quality products and reliable service.

## Our Vision

To be the most trusted supplier of pharmaceutical raw materials in India, known for quality, reliability, and customer satisfaction.

## Our Mission

To provide high-quality pharmaceutical ingredients at competitive prices, ensuring timely delivery and excellent service to support our customers' manufacturing needs.

## Our Core Values

### Quality Assurance

Supplying products of the highest standards that meet all regulatory requirements.

### Timeliness

Ensuring on-time delivery to support your production schedules.

### Consistency

Maintaining consistent quality and service standards throughout our operations.

### Transparency

Operating with complete transparency in all business dealings.

# Our Products

At Gautam Tradelink, we offer a comprehensive range of high-quality pharmaceutical raw materials that meet IP, BP, and USP standards.

# Quality Assurance

---

At Gautam Tradelink, quality is our highest priority. All products we supply undergo rigorous testing and quality control measures to ensure they meet international standards including IP, BP, and USP specifications.

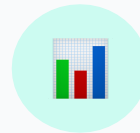

## **IP Standards**

Products conforming to Indian Pharmacopoeia specifications.

## **BP Standards**

British Pharmacopoeia requirements.

## **USP Standards**

Products complying with United States Pharmacopeia specs.

## Certification & Documentation

- Certificate of Analysis (COA)
- Material Safety Data Sheet (MSDS)
- Certificate of Origin where applicable
- Stability data when required

## Sourcing Standards

- Maintain strict quality control systems
- Follow Good Manufacturing Practices (GMP)
- Undergo regular audits
- Have necessary certifications for their operations

## Quality Control Process

- Verification of all incoming materials
- Testing against pharmacopeial standards
- Ensuring batch-to-batch consistency
- Proper storage and handling conditions
